

Future of Work Zone

23-25 November 2021 – Business Design Centre, London
PETEX Exhibition Floor – Gallery Hall

The evolving job market in an energy transition spells a complex mix of transference of skills alongside the skills retention needed to re-energise an ever more challenging traditional hydrocarbon sector. Join us at the Future of Work Zone at PETEX 2021 for insights and advice.

Speed Coaching

Book a 15 minute, 1:1 discussion with **Shereen Nairne, Energy Industry Consultant**

Coaching is an effective tool for gaining clarity and making change. It is a thought-provoking and creative process that allows you to maximise your personal and professional potential.

Book a coaching session if you would like to:

- Determine how to position yourself or your business as the industry changes
- Gain clarity on your career direction
- Explore barriers to change and how to overcome them

Book your preferred meeting slot by emailing lydia@pesgb.org.uk:

| Tuesday 23 November | Wednesday 24 November | Thursday 25 November |
|---------------------|-----------------------|----------------------|
| 10.45-11.00 | 10.45-11.00 | 10.45-11.00 |
| 12.45-13.00 | 12.45-13.00 | 12.45-13.00 |

Meet our Industry Expert

Shereen Nairne, Energy Industry Consultant

Shereen is an Energy Industry Consultant and qualified ICF Business and Personal Coach. She leverages her 15 years industry experience as a Geoscientist, and the knowledge and skills garnered through her current Sustainability and Energy Transition MBA studies, to deliver value through her consultancy - Leda Concordy. Shereen also has keen interest in the future of work. Through her former role as PESGB YP Director (2016-2018), Shereen supported young professionals in a time of great uncertainty in the industry. In 2020, she Co-Founded the year long ReNew You Project, providing a platform for sharing career experiences and advice in a rapidly changing energy landscape. Shereen is happy to volunteer her coaching skills to support the Future of Work Zone at PETEX 2021.
