

Collaboration Showcase | MSc Winners Speaker Presentations

Business Design Centre - 1st Floor Conference Suite (Hall 3)

Tuesday 23 November 2021	13.00-13.20	Toby Holloway – Imperial College London The Impact of Deep-Water Reservoir Architecture on Hydrocarbon Sweep and Connectivity; an Example from Offshore, Deepwater Angola
Tuesday 23 November 2021	13.25-13.45	Harry Rennie – Royal Holloway University of London Variability of Fault-Controlled Syn-Rift Deposits, Exmouth Plateau, NW Shelf, Offshore Australia
Wednesday 24 November 2021	13.00-13.20	Edgar Sakurovs – University of Manchester Distribution of the Deepwater Clastic Reservoirs of the Lower Cretaceous in the Essaouira-Agadir Basin, Offshore Morocco
Wednesday 24 November 2021	13.25-13.45	Julián Salazar – Heriot Watt University Late Cretaceous structural styles and depositional controls in the Putumayo Basin, Colombia
Thursday 25 November 2021	13.00-13.20	Alexandra Irvine – University of Aberdeen Analysing the Relationship Between Subsidence and Production with Consideration of Geological Factors Across the Permian Gas Fields Onshore Netherlands in Light of the Shutdown of the Groningen Field
Thursday 25 November 2021	13.25-13.45	Zulfathi Ishak – University of Aberdeen A Geological Investigation into the Overburden and Implications to Hydrocarbon Well Decommissioning Programme: A Case Study of Field A and B, Southern North Sea, UK <i>(Pre-recorded presentation)</i>
